

Easy, secure, cost-effective print management across your entire network.

COST EFFECTIVE

Print color documents more affordably than color laser.

- **Lower total cost of ownership**
 - Significant savings vs. color laser printers
- **Energy savings**
 - Dramatically reduced energy usage vs. laser printers
- **Supplies management**
 - Reduced cost of supplies storage and management

LOW INTERVENTION

Spend time managing your business, not your printer.

- **Low maintenance, high volume**
 - Print without interruption — up to 1830-sheet capacity with optional paper trays
 - Replaceable Ink Pack System printers can be loaded with enough ink for years of printing (up to 75,000 pages on the WF-R8590; up to 50,000 pages on the WF-R5190 and WF-R5690¹)
- **Fast output**
 - PrecisionCore® printing technology delivers print speeds up to 24 ISO ppm (black/color)[†]

IT TOOLS

Easily set up, configure and securely manage multiple printers on your network.

- **Easy installation and maintenance**
 - Easy setup with Epson® Web Config software, Universal printer drivers and PCL²/Adobe® PostScript® 3™
- **Seamless security support**
 - Manage printer access, secure device communications and protect confidential documents
